AUGUST 2024

## RAHS HOT NEWS

### IMPORTANCE OF IMMUNIZATIONS

MOHAMAD KHRAIZAT,  
MBA-MHA, BS-HCM,  
CSBI, CSPPM, CSAF,  
CSPR, DIRECTOR,  
REGIONAL ALLIANCE  
FOR HEALTHY  
SCHOOLS

As we begin the 2024-2025 school year, RAHS' commitment to the health and well-being of our students and the broader community is as crucial as ever. One of the most effective ways we can ensure a safe start to the school year is by focusing on the importance of immunizations.

Vaccinations play a pivotal role in protecting our children and adolescents from various preventable diseases. They not only safeguard the individual health of our students but also enhance our community's health by preventing the spread of infections. As we prepare to welcome students back, it is essential that we are equipped to support and inform their families about the importance of keeping immunization records current.

In your roles, whether you are directly involved in student health services or support our mission through administrative, educational, or engagement efforts, you have the power to make a difference. Our collective efforts contribute significantly to a health-conscious environment that promotes learning and growth.

Let's continue to advocate and educate on the benefits of immunizations, ensuring that all our youth are protected, and creating a healthier, more resilient community. Thank you for your dedication to the health of our students and for your ongoing commitment to public health excellence. Here's to a healthy and productive school year ahead!
